

SCS S-8

Helmet Bluetooth Intercom

Operation Manual

(Attention)

Thank you for purchasing S-8 helmet Bluetooth intercom .
For best use experiences , please read manual before use .

Installation

Dock Station

Clip

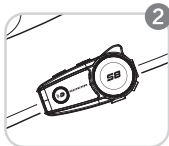

3M double-sided tape
(As Adhesive for Helmet)

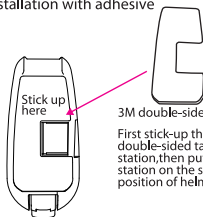

Silicone Pad
(For clip Installation)

3 Ways for Installation

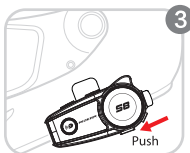

2. Installation with adhesive

3M double-sided tape

First stick-up the 3M double-sided tape to the dock station, then put the dock station on the suitable position of helmet.

Fixed the S8 to the dock station, installation completed.

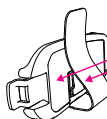

1. Clip

Silicone Pad

Clip

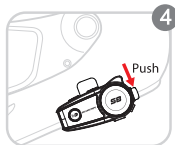

After installation, we can see clip here.

First stick up the silicone pad to dock station, then put the clip into dock station, now we can put the dock station on the suitable position of helmet.

3. Installation with 3M double-sided tape+Clip

If two ways above still not stable, we can try use these two ways for installation at the same time.

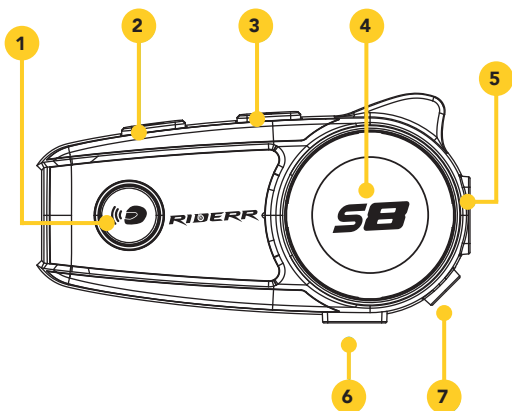

Take off the S8: Push the dock station from the right as picture shows, slide-up the 3M.

Remark: Mic should be close to the mouth, and speaker close to ear. If the installation of speakers are too deep from the ear, we can use the foam pad to make it closer.
